Since 1921

Natural Baby Skincare

About Weleda

Weleda exists to create **100% natural products** and we have **been doing so since 1921**. During this time we have never used synthetic ingredients, non-natural preservatives, artificial fragrances and colourants in our products nor have we ever tested our products on animals.

Weleda Calendula Baby - the world's leading natural baby skincare range

- Developed with the assistance of midwives, doctors, pharmacists and dermatologists
- Especially formulated for the delicate skin of babies and toddlers
- Ideal also for adults with sensitive skin
- Made with extracts of pure natural organically grown plants

New parents want the best for their children, so at Weleda, we use ingredients that agree with your baby's delicate skin and aid its healthy development. Our baby skin care products are free from synthetic fragrances, colours, preservatives, and raw materials derived from mineral oils, such as petroleum or paraffin, which form a film over the skin. Instead, we offer 100% natural plant oils derived from sun ripened seeds and fruits such as Sweet Almond and Sesame, pure essential oils from Lavender, Ylang-Ylang and plant extracts of Calendula and Chamomile. These natural substances are ideal for your baby because they are easily absorbed and are suitable for a baby's delicate skin.

For orders, helpline and stockists call 0115 944 8222 or visit www.weledababy.co.uk

Baby skin: five times thinner

A baby's skin is five times thinner than that of an adult's and is easily permeated by a diversity of substances, including those found in skin care products. Our Weleda Baby Skincare range contains only natural plant-based oils which are most closely related to the sebum in our skin, are easily absorbed to nourish and protect skin, and allow the skin to breathe healthily. The Weleda Baby range is already recommended by 70% of midwives in Germany (Emnid-Studie 2003) and understandably it's been dermatologically-tested not just on healthy skin, but also on easily-irritated skin that is prone to dermatitis and eczema. This means the range is also ideal for older children or adults who have to take special care of their skin.

Highly Commended,
Best Eczema Range

Babycare

The leading baby skincare as voted for by parents

Don't just take our word for it

Weleda is the proud recipient of a multitude of awards from leading publications and organisations in the baby care field. Our baby care products have received a top accolade from the midwife-tested TIPS Awards and Weleda Baby was voted 'Best Baby Skincare Range' in the recent Mother & Baby Awards giving mothers confidence and peace of mind knowing that they're using the best products on their precious baby's skin.

“This baby range provides an exceptional skincare experience”

Mother & Baby Award product tester

Best of the Best

“Congratulations go to the Weleda Baby range as the overall favourite. A beautifully presented range of products manufactured using only the finest ingredients”

Sharon Trotter, Midwife, author & founder of TIPS

Award winning range

The Weleda Baby range has been voted Top Skincare Brand in the highly-respected midwife-tested TIPS awards. Even to be nominated for the TIPS awards, brands need to meet the strict midwife criteria including standards of ethics and naturalness. Products must be free from harsh detergents and artificial additives such as synthetic fragrance, and company policy needs to support breastfeeding and provide parents with the latest advice on baby skincare.

For the second time Weleda has been voted TIPS 'TOP SKINCARE BRAND' with seven of our products winning 'Best of the Best' in their categories.

And it doesn't get better than that as these awards are voted for by parents themselves.

For orders, helpline and stockists call 0115 944 8222 or visit www.weledababy.co.uk

Perfectly natural skincare developed over 90 years

At Weleda we only use natural ingredients that are suitable for use on a baby's delicate skin. Our baby skin care products are free from synthetic fragrances, artificial colours or preservatives, and raw materials derived from mineral oils such as petroleum or paraffin, which form a film over the skin and can inhibit the skin from functioning fully.

Genuinely natural ingredients are selected including pure plant oils, soothing extracts of organic calendula and chamomile, and gentle essential oils of lavender, ylang-ylang and orange - warming, nourishing and nurturing.

Protective plant based oils are more akin to the sebum in our skin, are easily absorbed, well tolerated and allow the skin to function healthily.

Baby range key ingredients

Calendula

For centuries, Calendula has been known as a medicinal plant for aiding healing and reducing inflammation in small wounds and cuts & grazes. Due to its antiseptic properties, Calendula also helps protect the skin against infection. A monk once bestowed the plant with the beautiful name 'Bride of the Sun', inspired by its colour and flowers, which follow the path of the sun.

Sweet Almond Oil

Renowned for its naturally softening and soothing action, sweet almond oil has long been at the heart of gentle beauty treatments. It's one of the least stimulating oils around, so it is especially well suited to the care of sensitive skin. It's superfine quality means it's quickly absorbed and perfectly suited to baby's most delicate skin.

Skin Care

Calendula Lotion

TIPS 2010 Best Budget Baby Lotion

To replenish after bathing, or to cleanse and nourish sensitive skin. Its milky consistency absorbs quickly.

105005 200ml V

Calendula Nappy Change Cream

TIPS 2010 Best Budget Nappy Cream

A deep-nourishing and protective barrier cream. Helps prevent soreness and reduce redness.

105009 75ml V

Calendula Oil

TIPS 2010 Best Budget Baby Oil

To nourish and protect sensitive and dry skin. Ideal for daily care and baby massage.

105006 200ml V

Calendula Face Cream

A protective cream formulated for delicate facial skin to moisturise and protect against dryness.

105002 50ml V

Calendula Weather Protection Cream

Intensive protection against drying winds or cold, wet weather, for babies and all the family.

105007 30ml V

Calendula Moisturising Body Cream

A soothing and nourishing cream to protect dry or sensitive skin, allowing it to breathe freely.

105008 75ml V

When a baby is born, the skin is protected with its own natural oils and it is important not to strip these from the skin when cleansing. Gently bathing with plain water is recommended for babies skin in the first month. Soothing bath products free from detergents are then advisable for bath time. The Weleda baby Calendula skincare range is the natural choice for mild cleansing, for baby massage, moisturising face or body, and protecting the nappy area.

Baby Bathtime

Calendula Shampoo & Body Wash

TIPS 2009 Best Baby Wash
Gently cleanses and cares for sensitive skin of all ages.

105001 200ml Ve

Calendula Bath

Relieves symptoms of teething & colicky pain. Drops not recommended for babies under 6 months.

206007 25ml Ve

Homeopathy

(commonly used remedies)

Colocynthis 6

Colicky pain and flatulence, better for application of pressure.

301023 125 tablets V

Chamomilla 30

Intolerance to pain, colic or teething with anger/tantrums.

302013 125 tablets V

Many of these medicines are widely available in health stores and general retailers but some are classified as Pharmacy only. **P**

Chamomilla

The annual Chamomile is a wonderful plant of air and light with its finely divided leaves and radiant yellow flower centre that holds a little dome of air inside, while dispersing a glorious scent across the fields. The virtues of Chamomile have been recognised since antiquity. It was used by the ancient Egyptians and Greeks for fevers, and is still valued today for its soothing and calming properties.

Before taking a Weleda medicine consult your doctor or pharmacist if:

- you have any symptoms causing concern
- you have an existing medical condition
- you are taking any other medication
- you have any allergies or known food intolerances
- you are pregnant, planning to become pregnant or breastfeeding
- symptoms persist or new symptoms occur

Always read the label. Keep all medicines out of sight and reach of children. Store all medicines below 25°C.

Pregnancy Oil

Awarded absolute pregnancy **MUST-HAVE** in the Belly Balm section of the highly respected midwife-tested **TIPS** award scheme.

100% natural, Pregnancy Body Oil is ideal for soothing skin as it stretches. Using the oil for massage will help keep the connective tissues elastic – our best defence against stretch marks. Regular use visibly helps to correct the appearance of stretch marks on your pregnant belly; your thighs, bottom and breasts; and helps prevent new ones. Dermatologically tested.

606160 100ml Ve

Weleda products - caring for mums too!

Foot Balm

Packed with soothing and cooling naturals, this refreshing balm is the perfect treat for hot, tired or aching feet. Essential oils of lavender, rosemary, sweet orange and litsea cubeba refresh and revive in a non-greasy formulation that also strengthens skin to protect against blisters. Naturally antiseptic calendula helps keep bad-smelling bacteria in check, while myrrh acts as an astringent and hectorite (a mineral) whisks away perspiration to keep feet comfortably dry. Use after soaking feet in Rosemary Bath Milk to tackle excessive perspiration.

106016 75ml V

Lavender Relaxing Bath Milk

A long soak in our Lavender Bath Milk is the ideal relaxing therapy for mental exhaustion, over-stimulation and restlessness. Its harmonising action soothes body and mind, reducing tension and easing restlessness. A long fragrant soak in the evening, before bed, will help promote a peaceful night's sleep.

104007 200ml Ve

Skin Food

Weleda Skin Food is a nourishing and hydrating treatment for the whole body, especially hands, feet and elbows. Made with organic sunflower seed oil, and extracts of wild pansy, chamomile, calendula and revitalising rosemary extract to perk up tired skin, it is a great rescue remedy for lack-lustre or generally under-nourished complexions.

106013 75ml V
