## WOMEN OF HEALING

Our name, Weleda, expresses the deep connection between people and nature. It is an ancient name, derived from the Celtic tribes who named their wise, healing women "Weleda" or "Veleda". These historically authentic priestesses were highly respected and were asked for their counsel, their advice and honoured for their experience and wisdom.

Our logo shows the staff of Asclepius, the symbol of the art of healing, surrounded by two figures. They symbolise the idea of giving and taking, of helping and receiving help, of reciprocity.

Today, our name and logo stand for our commitment to health, wellbeing and to our social responsibility.

**"THE NATURAL WORLD  
IS CHANGING, AND  
IT ASKS US: DO WE  
WANT TO TRANSFORM  
OUR THINKING?"**

Dr. Ita Wegman

**"IN THE  
BEGINNING,  
THERE WAS A  
VISION AND  
A SMALL  
LABORATORY."**

## OUR STORY

With great courage and commitment, the founders of Weleda dared to break new ground 100 years ago. They knew of the deep connection between people and nature. Since 1921, we have been developing certified natural cosmetics and Anthroposophic medicine based on this understanding and Weleda has been a pioneer of sustainability right from the start. As much as we take, we try to give back. From our biodynamic medicinal plant gardens, to our sustainable and respectful supply chains, and the responsible use of resources – we are striving to make the world a better place. Sustainability and our respect for people and nature are part of our roots and our future.

A hundred years ago we became the world's first natural cosmetics company, pioneering organic farming methods and cultivation, setting standards for ethical business practises. Today, we are the world's No.1 producer of certified natural skincare and healthcare products, inspiring an industry and supplying into fifty countries and across five continents. And we are according to Cosmetify\*, one of the three most searched sustainable beauty brands globally.

# FOR PEOPLE AND NATURE

We humans are connected to one another and are part of nature. That is why we have a responsibility to each other and to the environment. We call Weleda a place for human development.

## HUMAN AND NATURE ARE ONE

Our founder Rudolf Steiner knew that people and nature are deeply connected. We humans are part of nature. Through our connection with nature, we live and develop, we nurture and heal.

We need nature. And nature needs us – today more than ever.

## TOGETHER FOR OUR FUTURE

Since 1921, economic success hasn't been the only priority for Weleda. We respect nature and cultivate partnerships with our customers, suppliers and employees. And because we find deep meaning in our work, we love what we do. And it shows: we receive prestigious awards for our contributions to sustainability. People and nature are facing grave challenges in the 21st century. In response, we are striving to make our

business more future-proof and sustainable, through our biodynamic medicinal plant gardens, our sustainable and equitable supply chains and our increasingly efficient use of resources. We are working to restore and maintain the balance between people and nature. This approach is in our DNA and carries us into the future.

**We take responsibility.  
For people and nature.  
Since 1921.**

**“WE DARE TO  
CARE, INSPIRED  
BY ANTHROPOSOPHY  
WE DARE TO MAKE  
A DIFFERENCE.”**

## Skin Food: Cult classic for over 90 years

Models, actresses and make-up artists around the globe have sworn by Weleda Skin Food since 1926. Then, as now, its award-winning formula is rich in active plant ingredients including pansy, rosemary, chamomile and calendula.

# WELEDA SINCE 1921. OUR STORY.

Courageous women and men took new paths in medicine and skin care 100 years ago. They founded Weleda, based on their understanding of people and nature as part of a holistic whole.

## OUR ROOTS

Weleda was founded at a time of great change. People wanted a better future; revolutionary ideas were in the air. Whether in politics, the sciences or business, pioneers everywhere were looking for new and better ways. It was at this time of new beginnings that Weleda's history began in a hospital, a pharmaceutical laboratory and a medicinal plant garden. The philosopher and polymath Rudolf Steiner, together with the physician Ita Wegman and the chemist Oskar Schmiedel, developed the first pharmaceutical formulations according to an understanding that underpins Weleda's product philosophy to this day: that life processes in the human body and in nature live in close relationship with each other.

## HOLISTIC RIGHT FROM THE START

Rudolf Steiner used the term "anthroposophy", meaning "the wisdom of man" to describe his ideas for medicine, agriculture and education. Steiner and Wegman understood the human being as holistic, one made up of the body, mind, soul and spirit. Based on the natural sciences, these two "pioneers of healing" developed the first anthroposophic medicines and skin care products in Dornach, Switzerland. In 1920 Rudolf Steiner gave a series of lectures to doctors and medical students, known as the "first medical course", marking the birth of integrative Anthroposophic medicine. The history of Weleda began the following year with the commercial production of medicine and skin care products in Schwäbisch Gmünd, Germany. In the same year, Ita Wegman founded what is now the Arlesheim Clinic – the world's first anthroposophic medical clinic. Many more followed.

## WELEDA WORLDWIDE

In many countries, doctors, pharmacists and patients joined forces and founded their own Weledas. After Switzerland and Germany, in the 1920s subsidiaries opened in the Netherlands, the UK, Austria, France, Czechoslovakia and even America. Products from the early years, such as Skin Food and Arnica Massage Oil, are still among the classics worldwide today. Steiner and Wegman believed their medicines needed to be shared, and should be widely available for anyone and everyone as they were (and are) gifts from nature.

# OUR QUALITY

We develop certified natural cosmetics and produce Anthroposophic medicines – with knowledge, skill and experience since 1921.

The quality begins with the plants grown in our biodynamic gardens. Our gardeners work with nature's own rhythms and intimately know every type of plant in the garden, from planting the first seed from our seed bank, nurturing the biodiversity of our soils, through to harvesting the crop by hand. Before we select a plant for a new formulation, we research it carefully. We observe it with all the senses to understand where and how it grows. This is how it reveals its unique characteristics and correlation to humans. Our natural cosmetics are certified by NATRUE – no other seal worldwide is more demanding in terms of quality. We produce Anthroposophic medicines from plants, metals and minerals. Our raw materials, sourced according to high quality criteria, are just as important as the methods by which we process them. We choose each process with care, because we know that growing quality plants is only half the story – it's the processing that makes the difference in preserving the plant's natural effectiveness.

## OUR PROMISE OF QUALITY

We use the best raw materials, procuring them from people around the world with whom we nurture close and trusting partnerships. This ensures that we can trace every plant oil, dried flower and essential oil all the way back to their source. As a member of the Union for Ethical BioTrade (UEBT), we are committed to the ethical sourcing of raw materials worldwide.

## QUALITY FOR US MEANS

- 100% certified natural cosmetics
- Over 80% botanicals are certified organic
- Tested to be free from microplastics, genetically modified ingredients, and petroleum-derived ingredients
- Ethical sourcing with respect for people, plants and animals
- Increasing our use of renewable energies
- 100% natural fragrances, crafted by our in-house perfumers

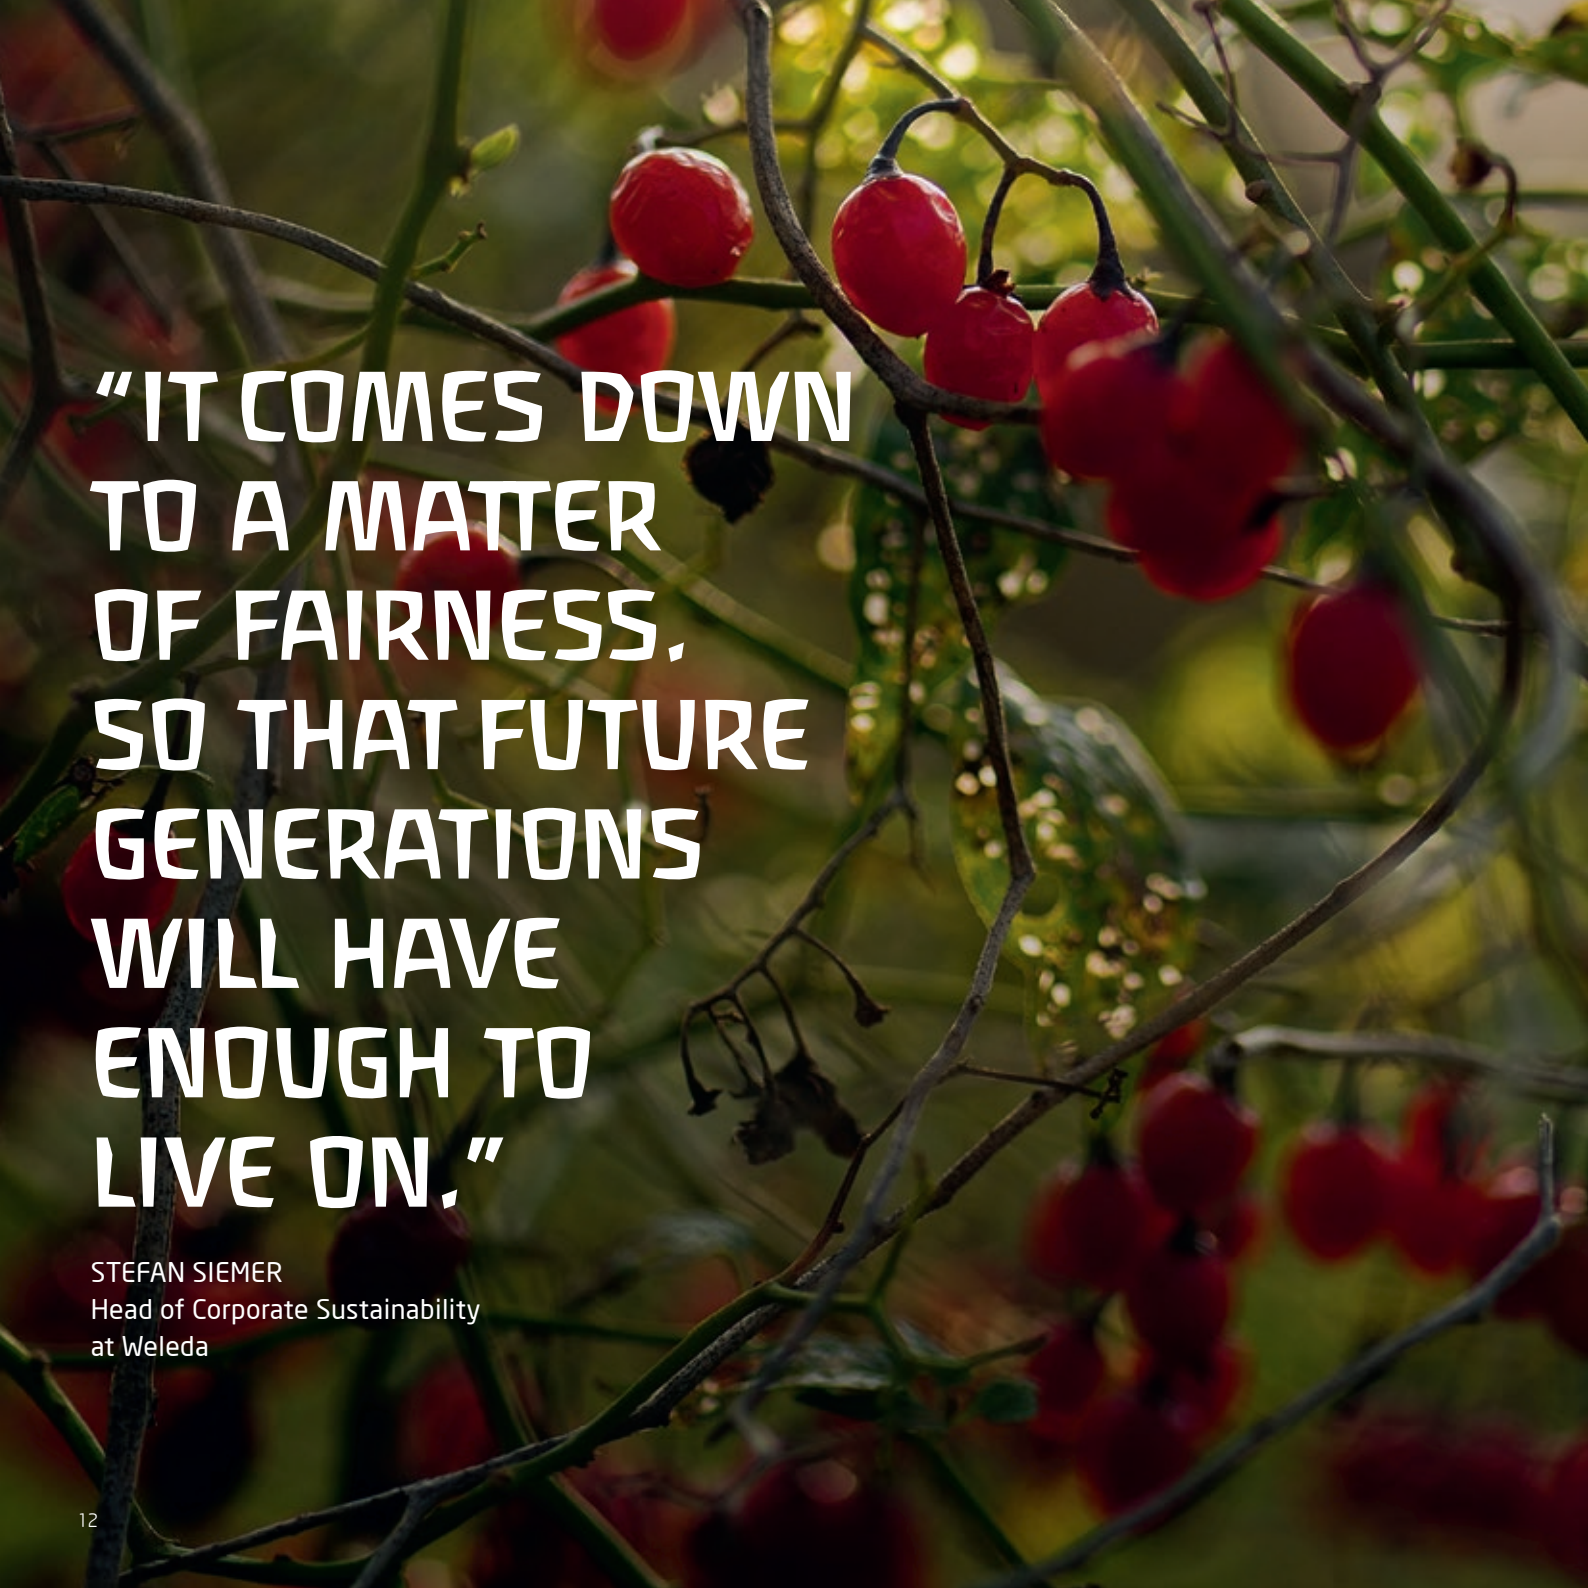

## Fragrant lavender

Weleda sources essential lavender oil from Moldova. We are working in close partnership with local villagers to convert to biodynamic cultivation by the end of 2021. This helps to ensure that the plants produce essential oil of the highest quality and purity.

**“HIGHEST QUALITY  
COMES FROM NATURE.  
CAREFUL PROCESSING  
KEEPS IT INTACT, RIGHT  
UP TO THE PRODUCT.”**

**"IT COMES DOWN  
TO A MATTER  
OF FAIRNESS,  
SO THAT FUTURE  
GENERATIONS  
WILL HAVE  
ENOUGH TO  
LIVE ON,"**

## SUSTAINABLE SINCE 1921

Unfolding health and beauty  
in harmony with nature and  
the human being.

### SUSTAINABILITY: A CORNERSTONE OF OUR WORK

For us, being a sustainable business means maintaining the health of people and nature for future generations. Only to take what can regenerate. We understand that we are a part of nature and must work in harmony with it. Only in this way can we face global challenges such as climate change and the loss of biodiversity. We are working to improve our climate balance and developing more sustainable packaging. By 2022 we aim to become independently certified a "B Corporation" – an internationally recognised certification demonstrating we meet high social and environmental standards by delivering financial, ethical value creation.

### UEBT: ECOLOGICAL AND FAIR

Since 1921 we have been committed to acting responsibly – socially, economically and ecologically. This includes adhering to the strict criteria laid out by the Union for Ethical BioTrade (UEBT). This non-profit organisation provides a globally recognised standard for the ethical sourcing of natural ingredients. It guarantees that biodiversity is conserved and used sustainably in the cultivation, harvesting and processing of raw materials. It also ensures that all our partners along the supply chain are treated equitably and paid fairly.

### HEALTHY SOILS: THE POWER OF THE EARTH

Through the biodynamic cultivation of nearly 248 square kilometres worldwide (the equivalent of 35,000 football pitches) we are taking active measures to improve soil health and to conserve biodiversity. Using natural methods, we aim to keep the soil healthy, making it resilient and as biodiverse as possible. After the oceans, it is not the forests, but the soils of the earth that serve as our planet's largest carbon stores. A living part of the earth's crust, soil filters rainwater to create new, clean drinking water. Without the power of the soil, there would be no food. We all live from healthy soil – humans, plants and animals. Our gardens around the world are homes to rich and diverse habitat. The Weleda Garden in Wetzgau, Germany is home to 50 bird species and several hundred species of wild bees, and where there are about 1,000 species growing there as wild and ornamental plants.

# Skin Food

For everybody for everywhere.

First formulated in 1926, our original formulation remains unchanged – a time-honoured, unique blend of pure plant oils, protective waxes and organic plant extracts of healing calendula, soothing chamomile and smoothing viola tricolor. The original Skin Food is a much-loved multi-tasking and multi-award winning product, providing intensive care to very dry and rough skin. Use everywhere.

*“It’s not particularly expensive and you can find it anywhere. The formula is so thick and buttery. When I have a tan, I’ll mix it with coconut oil and cover my entire body with it. I suppose some people may not like the greasiness, but it helps me hold on to the colour. It’s like my skin’s had a good drink. I go through so many of these...”*

# Weleda Skin Care Philosophy

We are all very individual and our skin needs different products at different times of life. Rather than a skin ‘type’, we should consider our skin ‘phase’, as our changing needs are influenced by our age, our health and environment. Using our unique ‘Lead Plant Philosophy’ we have created a range of super-nutritional products to support your skin as you go through life, preparing it for the way ahead:

**Prickly Pear (Cactus):** proven to deeply hydrate skin and provide a dewy, fresh complexion, all day long. Skin is nourished, refreshed and moisturised for up to 24 hours.

**Iris:** using active ingredients from the biodynamic iris root, this helps regulate and balance skin making it ideal for hormonal, young skin.

**Wild Rose:** precious rosa mosqueta seed oil’s active ingredients strengthen and support the skin’s structure, helping it retain moisture and combating the first signs of fine lines.

**Pomegranate:** the antioxidant-rich active ingredients of pomegranate seed oil are used exclusively in our anti-ageing range for regenerating and supporting cell renewal.

**Evening Primrose:** active ingredients of the evening primrose stabilise and strengthen mature and post menopausal skin, helping it retain bloom and radiance.

Our facial skincare active ingredients are supported with a range of effective mild cleansing systems for all skin needs and requirements.

We have two award-winning specialist skincare ranges - **Almond Sensitive Skincare** and for problem skin we have our **Aknedoron Purifying Facial Care**.

# AKNEDORON PURIFYING SKINCARE

## All it takes is Thyme

Student Kimberley Sanderson and supervisor, Dr Margarita Gomez Escalada, a Senior Lecturer in Microbiology and Genetics at Leeds Metropolitan, recently revealed that a solution using the common herb thyme – an active ingredient in our Aknedoron Purifying and Aknedoron Cleansing Lotions - was more effective in killing acne bacteria than traditional chemical-based creams.

Acne is caused by a bacterium called Propionibacterium acnes, which infects the skin pore and then forms a pimple. Currently, the most common treatments for acne are antibiotics or a topical cream or wash containing the chemical benzoyl peroxide. These treatments are often associated with side-effects, for example benzoyl peroxide often causes a burning sensation on the skin and irritation.

### Hints & Tips

Aknedoron, literally means gift (doron) for acne. These two unsung heroes are real problem solvers for anyone in search of specialist products for problem skin. Once tried, never forgotten!

Aknedoron Cleansing Lotion may be applied morning and night, using a cotton pad. Gently massage into the skin, lifting grime and cleansing without removing your natural sebum layer. After cleansing thoroughly, apply Aknedoron Purifying Lotion. Acting as a SOS treatment, it clears the pores and calms irritation.

## Aknedoron Purifying Skincare

### Purifying Gel Cleanser HG

A gentle but highly effective gel cleanser for deep pore cleansing. The antibacterial formula for skin prone to oily outbreaks, has been clinically tested to cleanse deeply, and reduce oiliness whilst also removing makeup to leave you with a radiant complexion.

Apply morning and evening to damp hands, gently massage the face and rinse clean.

102057 100ml Ve £12.50

### Refining Lotion HG

A light, refreshing moisturising lotion that won't overload oily skin and provides day-long hydration, harnessing the powers of antibacterial willow extract and soothing organic witch hazel distillate, for visibly clearer skin. The lotion has a long-lasting mattifying effect to reduce shine on oily areas, to even out the complexion and refine the skin's texture without blocking your pores.

Apply morning and evening on cleansed skin on face, neck and décolleté areas.

102058 30ml Ve £18.75

### SOS Spot Treatment HG

A calming and cooling spot treatment to target spots and pimples, day or night. Made with antibacterial willow extract and astringent witch hazel distillate, to improve the appearance of reddened skin overnight. Clinically tested to visibly reduce the appearance of spots and blackheads, to calm and cool affected areas, and reduce excess sebum.

Apply directly on spots or impurities where needed, applying a thin layer. Reapply day or night as needed.

102059 10ml Ve £11.50

### Aknedoron Cleansing Lotion HG

A daily cleanser to gently purify without stripping away the skin's natural defences. Sunflower and olive oils form the gentle cleansing base that lifts away dirt and grime while essential oils of orange, grapefruit, lavender and rosemary refresh and revive. Chamomile soothes, and Calendula restores the skin's natural balance. Perfect for hot, humid weather, and for cleansing on long journeys, because of its wonderfully refreshing qualities.

102007 100ml V £12.50

### Aknedoron Purifying Lotion HG

A potent mixture of expertly selected plant extracts and minerals, this incredible lotion restores harmony after oily outbreaks. Sage, thyme and lavender provide balance, while calendula and chamomile soothe. Witch hazel's mild astringent properties help clear the pores, and sulphur calms irritation while stimulating restorative blood flow. This lotion can be used on problem areas all over the body – simply apply with cotton wool.

102006 50ml Ve £11.50

*“My skin felt so much better! Less itchy, less red, less bumpy, less irritated and fewer spots. It is hard to describe but my face feels free! My skin feels much less oily, which is exactly what the product states it will do: reduce excess sebum and oiliness”*

## Succulent success

**Challenged by climate change**, today's horticulturalists are turning to plants that can withstand increasing temperatures and decreasing water supplies. These tenacious and drought-resistant plants can withstand intense and arid conditions. The intelligent prickly pear cactus can store water reserves in its broad paddle-like leaves long after other desert plants have shrivelled and withered. It's bursting with moisture from within, enabling it to thrive and bloom in the driest of climates, and can store water reserves in its leaf shaped stems long after other desert plants have shrivelled and withered. Thanks to the gel-like mucilage stored within, which is similar to our skin's hyaluronic acid, containing similar polysaccharides (sugars), it is remarkably resilient.

# ALMOND, SENSITIVE SKIN

Our Almond Sensitive Facial Care is formulated with gentle, organic sweet almond oil and other pure ingredients carefully selected to be soothing and kind. Together they bring calm. Natural skin barrier is restored and balance resumed. Skin's moisture levels are supported and dryness comforted. And since our formula is fragrance-free and hypoallergenic, even the most sensitive skin can become clear, smooth and comfortable.

Prunus dulcis

## Almond Sensitive Facial Care

**Almond Sensitive Cleansing Lotion** HG

This rich, creamy cleanser allows sensitive skin to restore its delicate lipid balance and pH balance is maintained. Our gentlest cleanser will not strip away the natural oils necessary for healthy skin. Apply with a damp cotton wool pad, to leave skin soft and refreshed.

**Hints & Tips**

Almond Soothing Facial Oil is the perfect make-up remover! A must-have whatever your skin type. Apply a few drops to a cotton pad and wipe over the face – particularly good for removing eye make-up gently, quickly and effectively.

*“I love to create my own bespoke treatments with essential oils, and this oil from Weleda is the perfect base. It mixes well with other products but is equally beautiful alone. This product melts into skin to give a hydrated finish that’s not too oily and is perfect for boys and girls alike. I favour natural skincare for its nourishing qualities – and Weleda always delivers.”*

**Iris root** is known for its ability to preserve vitality. Our twenties are a time of great change and development, which can often disrupt the natural balance of the skin. This is why iris, with its moisture regulating qualities, is ideal for this stage of life. Expertly combined with soothing calendula, purifying witch hazel and gentle, nourishing oils of jojoba and sweet almond, our Iris range takes care of skin when its needs are changing from day to day.

### Hints & Tips

The iris's beauty, radiance and longevity depend on its extraordinary ability to balance, by adding or with holding moisture as required. In combination with jojoba oil and soothing witch hazel, it regulates the skin healthily, so moisture content can balance and young skin regains its naturally beautiful appearance.

*"I'm always in safe hands with Weleda, knowing the refreshing Iris Balancing Day Cream will always bring my actress's skin back to life, especially whilst filming long hours and often battling the elements"*

# WILD ROSE, SMOOTHING

In your thirties, skin naturally begins to show the first signs of ageing - fine lines and the loss of that vital glow. It needs intensive nourishment and gentle smoothing to retain its youthful resilience and elasticity.

Rosehip seed oil is perfect for your skin during this time of life. Proven to renew elasticity and intensively moisturise, this golden oil strengthens the skin's resilience to environmental factors, while reducing the visibility of fine lines.

Rose Absolute, the perfume that gives the Weleda Wild Rose range its unique, indulgent fragrance, comes from the petals of organic Damask Roses. Grown in the Isparta region of Turkey, what began as a local initiative to train small-scale farmers in organic farming methods, now includes over 300 farmers in the production of these vibrant roses.

# POMEGRANATE, FIRMING

**After 40**, our skin needs additional nourishment as circulation decreases, making it harder for the epidermis to remain soft and supple. Skin becomes drier and more sensitive to irritation. The powerful concentrate of nutrients from pomegranate, including vitamins C, B5 and potassium, together with antioxidant polyphenols make it ideal for supporting the reduced regeneration abilities of the skin.

Combined with rich argan and borage oils, the cold-pressed pomegranate seed oil in our range enables maturing skin to remain firm, vibrant and naturally radiant. Wrinkles are reduced and regeneration improves.

# EVENING PRIMROSE, AGE REVITALISING

**The Evening Primrose** Facial Care Range specially designed for the needs of maturing skin.

Hormonal changes after the menopause can cause skin to become thinner, impairing its barrier function and reducing its resilience. Its ability to hold moisture diminishes and it tends to be drier. Elasticity and radiance decrease, as does the supply of nutrients. During this phase, the specially developed Evening Primrose Facial Care is here to help you.

The Good Housekeeping Institute Readers Recommend Award was awarded for this range (Day, Night & Eye Cream).

### White Mallow

White Mallow is the lead plant in both our Baby Derma range and our men's skincare collection. It provides a protective barrier to promote healthy skin formation, both calming and soothing the skin. Traditionally used as a healing plant in ancient times, the gel-like substances in the roots and flowers protect the plant from drying out and the high concentration of mucilaginous substances in the roots calm and soothe offering an emollient, protective layer to just shaved, sensitive skin.

# Working towards more sustainable packaging solutions

## Sustainability is high on our agenda

At Weleda we are working hard behind the scenes to make our recyclable packaging even more sustainable with less waste, and using more recycled materials for packaging. Weleda's recyclable glass bottles are made from 85% recycled glass (the highest % possible). Weleda's roll-on deodorant bottles are made using 70% PCR (post consumer waste). Weleda's recyclable cartons are printed using mineral-oil-free colour inks on 100% FSC certified card. All Weleda's outer packing boxes are made from 100% recycled board.

Four tonnes of material were saved in 2017 by optimising the weight of the screw caps for our recyclable aluminium tubes, and we've also recently reduced the amount of aluminium used in packaging and have introduced ABL (Aluminium Barrier Laminate) tubes for some new-launch products, a material which uses less aluminium. New packaging is currently in design using 100% recycled plastic.

As detailed in Weleda's annual Sustainability Report, we're working towards a sustainability goal for 2022 that 65% of the weight of all primary packaging produced must come from bioplastics or recycled plastic sources.

## Achieving more through TerraCycle®

We've teamed up with recycling experts TerraCycle® to ensure that all Weleda packaging can be recycled within the UK, even if some county council kerbside collection schemes don't accept certain mixed plastics.

Whilst Weleda's glass bottles, aluminium tubes and plastic bottles are widely recyclable via local council kerbside collection schemes, some regions may not offer kerbside collection for the mixed plastics used in Weleda's 'soft touch' plastic tubes, even if they are technically recyclable, because sorting machinery and recycling facilities vary from county to county.

Our soft touch tubes are made from a partially recycled mixed plastic, which is mainly 50% recycled HDPE (high density polyethylene).

Through our partnership with TerraCycle®, customers can now return their empties to their local Weleda Wellbeing Advisor or collection point. TerraCycle® also awards points for the waste collected, which can then be redeemed for a charitable donation to charities and non-profit organisations. Downstream, the recycled plastics are then made into new products such as garden furniture.

## ✓ ACCEPTED WASTE

### All Weleda soft touch plastic tubes

See the picture below for what you can recycle through this programme. Every time you empty a Weleda soft touch plastic tube, save the packaging and send it in to TerraCycle® to be recycled.

### All Weleda soft touch plastic tubes, including:

- Skin Food Original and Skin Food Light
- Body Washes / Shower Gels / Body Scrubs
- Sunscreen and After Sun Lotions
- Lip Balms
- Conditioner
- Mini & Travel Size Soft Touch Plastic Tubes

## ✗ NOT ACCEPTED WASTE

- Any other brand of beauty care packaging
- All cardboard, glass, aluminium and rigid plastic packaging as these can be recycled via your local council facilities
- All Weleda packaging that is not a soft touch plastic tube

## The Global Penguin Society

At Weleda, we have identified common goals with The Global Penguin Society and we are committed to ensuring our products contain no chemical nasties that could pollute our oceans and have a detrimental effect on marine life.

Our revolutionary partnership with TerraCycle® ensures that no Weleda plastic packaging needs to go to landfill.

Points collected from this partnership will raise funds for our chosen non-profit organisation, the Global Penguin Society (GPS), founded by Marine Biologist Dr Pablo Borboroglu.

Over half of the world's 18 species of penguin are listed as vulnerable or endangered by the International Union for the Conservation of Nature. Threatened by poor fisheries management, pollution and climate change in the oceans, penguins also face pressure on land from coastal development and irresponsible tourism.

Every 10kg of Weleda packaging recycled through TerraCycle® will raise nearly £10 for the Global Penguin Society, to support its international conservation activity.

# BODY OILS

### Birch Cellulite Oil HG

This extraordinary oil is bursting with ingredients designed to tone, smooth and firm the skin. Organic birch leaf extract is full of flavonoids to purify and detox the body. Rosemary improves the circulation and metabolism, while Butcher's Broom has an anti-inflammatory effect. Jojoba oil smoothes, apricot oil provides essential fatty acids and wheat germ oil nourishes the skin with vitamin E. Massage into problem areas using moderate pressure, and in circular movements work upwards, towards the heart. In just under two months, skin elasticity and firmness can significantly improve, as demonstrated by independent assessors using ultrasound tests.

**Your skin - the boundary**

Our skin is the boundary between ourselves and the outside world and as such reflects both internal factors – nutrition and emotions, and external factors - our environment, and the creams and lotions and potions we apply. Sometimes skin can be more reactive to these factors – then we often say our skin is sensitive. When skin is sensitive it's even more important that we take good care of it and keep it well-moisturised.

*People with sensitive or problem skin have been looking for mild and chemical-free products for quite some time, and if you're not already converted to the Almond range, we have customers who are decades ahead of you. Luckily, it's never too late to try a natural alternative. Weleda's almond products are especially devised for skin that's super-sensitive, dry or prone to soreness. It's a calming range, with the mild, subtle aroma of bitter almond. Delicious!*

# RELAXING THE WHOLE BODY

Moldova’s warm, dry climate and fertile black soil have supported the large scale cultivation of lavender for centuries. Weleda’s partnership with Moldovan lavender growers began in 2005 and since then close collaboration and effective communication has resulted in the involvement of over 200 families and a growing area of almost 200 hectares.

Weleda’s Lavender Body Care range offers the ultimate relaxation for body, mind and soul. The classic scent of calm and peace has a relaxing effect on the whole body. The components of lavender oil are known the world over for their incredible soothing and relaxing power, whilst the vivid blue-violet colour of the flowers fascinates the eye. Our formulations, with luxurious natural plant oils expertly blended with our organic Moldovan lavender, will calm the mind, soothe the body, and nourish the skin.

# INDULGENCE AND LUXURY

Weleda's Wild Rose Body Care range benefits from the rose's balancing skills. The rosa moschata seed oil soothes and smooths the skin, whilst the indulgent fragrance of damask rose harmonises the senses. Grown in the Isparta region of Turkey, what began as a local initiative to train small-scale farmers in organic farming methods, now includes over 300 farmers in the production of these vibrant roses. With the finest natural ingredients, such as the oil from organically grown rosa moschata rosehips, this range contains protective vitamins A and E which help the skin resist the signs of ageing as well as important fatty acids to help maintain the skin's protective barrier.

# REGENERATING & STIMULATING

Although the pomegranate looks brittle and dry from the outside, it conceals a surprisingly rich and plump interior with countless seeds, each cushioned in juicy red flesh, resembling small, jewel-like berries.

Weleda's organic pomegranate comes from the fertile valleys in the coastal region of Icel in southern Turkey. This thriving fair trade farming partnership ensures Weleda has a top quality supply of organic pomegranate, and guarantees the farmers a reliable income. Harvesting begins just after dawn, the crop is hand picked, carefully and laboriously, to ensure the best quality fruit. The juice is extracted for the food industry, and the seeds are then dried before they are cold pressed to extract the valuable oil for skincare. To produce just 1kg of the precious oil requires 500kg of pomegranates.

Weleda's pomegranate farming partners are a small scale cooperative of over 100 growers, so protecting the landscape from intensive farming and potentially damaging large scale farming methods.

# PURIFYING BIRCH

**Birch** is renowned for its detoxification power. Full of flavonoids which encourage the body to flush out toxins, birch leaf extract helps to restore skin radiance from both inside and out. Weleda uses 500 tons of organic birch leaves a year, collected by our fair trade partners in the Czech Republic.

A dermatological study\* confirmed that when using Birch Cellulite Oil twice daily over 28 days in combination with Birch Juice, testers' skin was on average noticeably 35% firmer and skin elasticity improved by 20%.

\*The latest efficacy tests for Birch Cellulite Oil were conducted independently by German dermatological specialists proDERM, Institut für Angewandte, Dermatologische Forschung GmbH, Hamburg, over 12 weeks, using Birch Juice for the first three weeks of the study.

## Birch Skin Care

**Birch Body Scrub**

Containing the gentlest of exfoliators – tiny beeswax pearls, with round, soft edges, Birch Body Scrub loosens dead skin cells without disturbing the healthy layers below. Healthy skin exfoliates naturally, so there's no need to use a scrub every day when your skin is in great condition. Birch Body Scrub is ideal for use weekly, to give your skin a boost and a glow. Our exfoliator pearls are suspended in a rich, creamy cleanser made from moisturising sesame seed oil, with birch extract to purify and tone the skin, citrus to refresh, and rosemary to stimulate the circulation.

Recommended use: Once weekly

**Birch Juice**

A certified organic drink with birch leaf extract to gently cleanse the entire system – thereby restoring vitality and a healthy glow to skin. Organic lemon juice completes the tonic effect. Simply mix a tablespoonful with a glass of water, or add to pure apple juice. The Czech growers enjoy it for breakfast, stirred into yogurt! A dermatological study confirmed Birch Cellulite Oil used twice daily over 28 days in combination with Birch Juice, noticeably improved testers' skin, which appeared on average 35% firmer and skin elasticity improved by 20%. Visible improvement of skin-structure was recorded in 85% of cases, and testers' skin showed a healthy 20-25% increase in blood circulation/ microcirculation.

203000 250ml Ve £11.95

**Birch Cellulite Oil** 

From a holistic standpoint, an increase in cellulite can indicate a build-up in toxins within the body – most of which are stored within the body's adipose (fatty) tissue. Regular massage and the use of specific cleansing and stimulating oils, can significantly improve the appearance of these areas – and support the body in its own process of internal cleansing. Weleda's Birch Cellulite Oil is a completely natural massage oil for areas of visible cellulite anywhere on the body such as thighs and buttocks. Extracts from organically grown birch, rosemary and butcher's broom stimulate the skin's metabolism, and are blended with active carrier oils, including vitamin rich wheat germ and nourishing jojoba. Invigorating essential oils of grapefruit and cypress provide the fragrance, and also work to uplift the mind, and energise the body. And it really works. A dermatological study confirmed that after using Birch Cellulite Oil twice daily over 28 days, testers' skin was on average noticeably 22% firmer, visibly 21% smoother and cellulite significantly reduced.

Our fragrant natural deodorants offer reliable protection from body odour without the worrisome ‘chemical nasties’ many of us want to avoid. Formulated with organic ingredients and without zirconium or aluminium salts - to allow the skin to function healthily - they are naturally fragranced with pure essential oils which also help preserve the product, meaning artificial preservatives and parabens can be avoided. Our Roll-On Deodorants are quickly absorbed leaving no sticky feeling on the skin, and the new recyclable bottles are made from 70% recycled plastic sourced from British milk bottles. All our deodorants are NATRUE-certified natural and suitable for vegans.

# Ethics and efficacy - that's what we pride ourselves on at Weleda.

Our gentle ideology is to support, not interfere and it stems from anthroposophy, the holistic approach to healthcare which is grounded in natural balance. From our sustainable farming, to biodynamic cultivation and global innovation, we have been committed to working in harmony with nature and human beings since we sowed our first seeds in 1921.

100 years later, our purpose is still to be as sustainable, honest and natural as possible, and to help reconnect people with nature because everything we are has its complement in nature. Today, others have rooted themselves in a similar mission - following the pioneering pathway we've been forging for a century.

You might know us for your baby's first nappy balm, grandma's beloved hand cream or 'that' iconic green tube of Skin Food. From gardeners to midwives, nursers to herbalist, individuals to families, everyday heroes to high profile celebrities, we are a community, for anyone looking to live their lives with a cleaner conscience.

Because we care, we nurture, we innovate, we support good health.

For 100 years we have led a movement and we continue to lead it today.

Bringing you closer to nature, because You Are Nature.

# Animal testing

We get asked all the time about animal testing and whether our natural and organic cosmetics are cruelty free. The answer is yes they most certainly are!

Weleda has never tested any of its individual cosmetics ingredients nor finished beauty products on animals. We don't carry any cruelty free symbols on our packs because we have the NATRUE seal on every single one of our cosmetics. NATRUE is against animal testing; their criteria stipulates:

"Products must comply first and foremost with the basic requirements of Cosmetics Regulation (EC) No 1223/2009, particularly with regard to their composition, safety, efficacy and labelling requirements. Furthermore, animal testing is fundamentally against NATRUE's underlying values and ethics. It is for this reason that the NATRUE criteria extends the animal testing ban on finished cosmetic products as regulated by Regulation (EC) No 1223/2009 to countries outside the EU."

Today thankfully it is against the law in Europe for any beauty cosmetics to be tested on animals so it goes without saying that, as a European beauty brand, our range is cruelty-free. But maybe it doesn't go without saying, as we hear some of you asking, what about mainland China where current regulation requires even imported European cosmetics to be tested on animals before they can be sold in China?

The term 'cosmetics' in China is considered to be skincare, makeup, perfume, hair care, sun care, nail care, deodorants and whitening products. Strangely enough toothpastes and bars of soap are exempt, and as such they are not required to be tested on animals. So Weleda toothpaste and soaps may be found in China. But rest assured they are still cruelty-free. Cosmetics bought in China via an overseas e-commerce website also avoid the animal testing requirement, so increasingly Chinese customers are buying from online stores in Hong Kong and further afield in order to get hold of European green beauty brands.

We do not sell our other products in mainland China because of the current cosmetics regulation, and there is no plan to do so until China changes its requirement regarding animal testing. Hopefully consumer pressure in China will bring about change before too long.

## No animal testing

Weleda has fundamentally opposed all animal testing for our cosmetics since 1921 and fortunately, since 2014, EU law has caught up with us now banning all animal testing. Today no cosmetic sold in the EU can claim to be 'cruelty-free' on the packaging.

We do test our products on real people, through extensive in-use monitored studies. We first test each ingredient for toxicology prior to use, and then test our formulations on human volunteers for skin tolerability. Animal testing is fundamentally against the underlying values and ethics of the NATRUE certification standard. The NATRUE criteria also extends the animal testing ban on finished cosmetic products to countries outside the EU. You will find the NATRUE seal on every one of our natural and organic cosmetics.

# NATURAL ESSENTIALS

Our range of everyday essentials offers soothing balms for where they are needed most, oral care for healthy teeth and gums and natural deodorants to keep you smelling great.

Sometimes the skin needs targeted care and attention – whether it’s for hardworking hands, dry lips, aching feet or skin prone to irritation, intensive and fast absorbing moisturisers will nourish, protect and replenish. Toothpastes, carefully formulated and developed with dentists, maintain the health of teeth and gums naturally, whilst deodorants freshen the skin and neutralise odours, free of all aluminium salts. Organic juices and elixirs provide a wide range of specific health and nutritional benefits as well as maintaining general wellbeing.

## Organic elixirs & juices as the seasons change in Spring and Autumn

Our bodies are instinctively responding to changes in the light, and our thoughts often turn to health, as well as to spring-cleaning, or filling up the freezer. It's a time to listen to your body, when a detox or a vitality-boost are exactly what's needed to carry us through the next months. With ingredients that are organically or biodynamically grown, or from certified, controlled wild collection, Weleda's elixirs and juices are free from synthetic additives of any kind. The extracts which make up our juice and elixirs come from native trees and shrubs – Silver Birch, Blackthorn and Sea Buckthorn.

# ANTENATAL & POSTNATAL

## Trust your intuition and mother nature

Developed in conjunction with experienced midwives, these products are made from plant-based oils which, in being similar to the skin's own natural oils, are easily absorbed by the body.

To complement our nourishing oils, we use natural, soothing plant extracts including organic calendula and chamomile, and essential oils of lavender, ylang-ylang and orange – warming, nourishing and nurturing. All of these are free from synthetic fragrances, colours and preservatives and we avoid using raw materials derived from mineral oils, such as petroleum or paraffin, which form a film over the skin rather than caring for it.

## For bump, birth and beyond

Our certified natural ingredients work in harmony with the skin, making them ideal for you and your baby, both before and after you become a mum.

### Stretch Mark Massage Oil HG

A soothing, softening combination of jojoba, sweet almond and wheat germ oils, this massage oil is full of vitamins A, D and E as well as essential fatty acids and warming, skin-relaxing arnica. Massaging into the skin daily will help keep the connective tissues elastic – our best defence against stretch marks. Regular use visibly helps to correct the appearance of stretch marks on your pregnant belly, your thighs, bottom and breasts, and also helps prevent new ones. Easily absorbed, and with a delicate, light fragrance, Stretch Mark Massage Oil is a pleasure to apply.

106119 100ml Ve £19.95

The treatment of the skin with Stretch Mark Oil over a period of six months resulted in a reduction of existing stretch marks:

- Reduction of stretch mark area - 33% after six months
- Skin surface smoothness + 92% improvement after six months

### Nursing Oil

Developed by midwives and pharmacists, this gentle, natural formula was created for nourishing and soothing massage of the breasts prior to nursing. Pure, natural essential oils of fennel, caraway and marjoram are traditionally used to support healthy lactation and stimulate milk flow. Regular massage with this warming oil helps to promote a positive breastfeeding experience.

606162 50ml Ve £12.50

### Perineum Massage Oil

Weleda Perineum Massage Oil is a specially developed oil to assist in preparing for childbirth. Massaging the perineum with a composition of sweet almond oil and wheat germ oil helps relax the cellular matrix and increases elasticity which may help prevent tearing during childbirth. Dermatologically tested and with no synthetic colourings, preservatives and fragrances, or mineral oil based raw materials.

606161 50ml Ve £12.50

### Nipple Balm HG

Developed with midwives and pharmacists, this fragrance free nipple balm provides care and protection for sore nipples, cracked skin and chafing. Suitable for frequent use and safe for both mum and baby. Nipple Balm contains organic calendula extract and does not need to be removed before breastfeeding.

205027 25g V £8.25

# Introducing our brand new expert Midwife Team

Mother and daughter midwives Anna and Sheena are here to get the best out of Weleda Baby products

## All4Maternity

Created by internationally renowned mother and daughter midwives, All4Maternity offers a unique and accessible learning platform to support, develop and nurture midwives, student midwives and maternity workers. Anna and Sheena have developed an online global community where all are welcome; their underpinning philosophy centres on compassion, kindness and respect. All resources are evidence-based and easy to access to enable responsive searching and innovative means of information sharing.

## All4Birth

All4Birth is an online, freely available resource for sharing of information & resources related to childbirth and maternity care. Co-created by a global community of birth practitioners and women and families, All4Birth focuses on normal physiological childbirth related to preconception, pregnancy, parturition (birth) postnatal care and parenting.

## Recommended by midwives

The Weleda Baby Care range has been developed with the assistance of healthcare professionals and pharmacists and are dermatologically tested.

The support and endorsement of the Midwifery community is so important to Weleda. That's why we've been working with our esteemed friends at All4Maternity to support their education programmes, publications and events.

Our Weleda Baby range is recommended and trusted by UK midwives.

## Personal Profiles:

### Sheena Byrom OBE

Sheena Byrom is a practising midwife of 40 years, and was one of the UK's first consultant midwives. As well as being an international speaker, Sheena provides consultancy services to organisations globally.

Sheena was awarded an OBE in 2011 for services to midwifery and was made an Honorary Fellow of the Royal College of Midwives in 2015, and has received Honorary Doctorates from Bournemouth University and the University of Central Lancashire.

With her midwife daughter Anna is the proud joint owner of The Practising Midwife journal, and an exciting learning online platform All4Maternity.com.

Sheena is committed to the humanisation of childbirth, to maximising normal physiological birth processes, and for all women to experience a positive birth.

### Dr. Anna Coonan-Byrom

Starting her midwifery career in 2000, Anna is passionate about relational midwifery care that centres childbearing women, people and families. Working clinically across all areas of maternity Anna moved in to midwifery higher education in 2010. In 2019, she completed her doctoral studies exploring the influence of the Unicef UK Baby Friendly Initiative. Transforming midwifery care through effective education is Anna's goal and her vision has seen the development of a globally renowned case-based learning curriculum based on the wellbeing-orientated philosophy of salutogenesis. Supporting, strengthening and sustaining optimal experiences and outcomes for birthing women, families, midwives and maternity workers has been at the heart of Anna's work as Director and publisher of The Practising Midwife, The Student Midwife journals and All4Maternity learning, sharing and caring platform including All4Birth the open access resource for childbearing people.

## Trust Mother Nature

Our 100% certified natural pregnancy and baby care ranges are developed by experienced midwives and pharmacists, gently helping you prepare for the birth of your baby and beyond.

Our award-winning pregnancy care products are made from plant-based oils, which are easily absorbed by the skin and our midwife recommended Calendula baby care range supports your baby with the kindest, natural, sustainably sourced ingredients suitable for your baby's delicate skin.

# BABY SKIN CARE

## The healing power of Calendula

Traditionally one of the most popular herbs used in skincare and medicinal products, Calendula officinalis not only soothes sensitive skin, but is renowned for its gentle wound-healing properties. Calendula has an antiseptic, antimicrobial and anti-inflammatory action, yet is mild enough to care for even the most delicate skin of babies and toddlers due to the plant's natural protective properties.

## Protecting and caring from the very beginning

Products that are free from synthetic preservatives, fragrances and colourants are the natural choice and Weleda Calendula Baby Care is 100% certified natural.

Weleda Calendula Baby Care provides comfort and supports the development of healthy skin. All our products have been developed with the assistance of physicians and midwives and are dermatologically tested.

## Did you know?

Weleda uses over 7 tonnes of fresh calendula flowers in the baby care range every year!

# WHITE MALLOW DERMA

**Naturally soothing for hyper-sensitive baby skin**

As far back as ancient times, white mallow was highly regarded as a medicinal plant. Unlike many other plants, it feels warm and soft to the touch. It radiates softness and sensitivity, which is why it is well suited to skin that is sensitive or affected by baby eczema, an allergic skin condition characterised by dry, red and itchy skin.

The anti-irritant properties of white mallow help calm and protect hypersensitive skin, relieving itching and promoting healthy skin development. The polysaccharides in its roots are particularly effective and, combined with water, form an organic gel which provides moisture, alleviates irritation and envelopes the skin in a soothing cocoon. Organic coconut oil, sourced sustainably from the Philippines, is a source of vitamin E which is essential for healthy skin growth and repair, keeping skin smooth and protecting against cracking. Recent research has shown its effectiveness in treating atopic dermatitis in paediatric patients.

# Natural Medicines Grown by Hand

To ensure the best quality ingredients we grow our own plants in herb gardens in Derbyshire. There we grow to biodynamic® standards, which is a form of farming we call “super-organic” - it isn’t just about how the plants are grown it’s also about where and when we grow them.

We ensure the eco-system is balanced, planting in line with the biodynamic calendar; odd at first until you realise that the moon, sun and planets all affect the way a plant grows. Farming in this way isn’t easy but it is well worth the extra effort we go to as our plants make potent tinctures from which we make your medicines.

Weleda has the largest medicinal plant gardens in Europe, home to over 1,000 different species of plant growing on 23 hectares, around 50 different types of bird and more than 30 species of wild bee. Over 120 plants are used, freshly picked, in tinctures for Weleda products.

## We hand pick our gardeners too:

Our gardeners are special folk. Their job is to nurture, ensuring the plant itself and its environment is healthy. We use our own seed bank as we believe this makes for plants most suited to our environment here in Derbyshire. We use traditional farming methods as it makes sense to rotate our growing beds annually and we combine wisdom from our many seasons of gardening, creating active composts to feed the soil from our own plant materials; we make our own biodynamic garden preparations from our natural materials which we spray in the Spring, Summer, Autumn and Winter. Our aim is to grow the healthiest of plants, always.

*“The harvest is a special time every year.  
Especially when you have followed the  
calendula growth from the very beginning.  
Each year we have new seasonal workers  
with very different personalities.  
The garden becomes the sum of every  
person who has worked here.”*

Claire Hattersley  
Cultural Development Manager

*“Over 81% of all plant ingredients are  
from biodynamic, organic or certified  
wild sources. One of the highest levels  
in the world.”*

Annual & Sustainability Report 2017

# Natural Medicines Made by Hand

## From plant to product...

From the moment our head gardener judges a plant to be ready we are on countdown to harness its power. We harvest at specified times on certain days of the year. Sometimes we harvest the root, sometimes the flower, sometimes the whole plant. Our gardeners scrub-down and gown-up to meet the stringent rules we work to in our pharmaceutical laboratories. They harvest, clean, chop, grind and prepare the plant material and they work with the production team to turn this into the precious Mother Tinctures.

## Homeopathy - where 'like cures like'

We also manufacture Homeopathic remedies. Developed by Dr Samuel Hahnemann in the 18th century, homeopathy also follows a holistic approach to good health stimulating the body's natural ability to cure itself. Its guiding principle is to choose a remedy that would produce similar symptoms to those you wish to treat, i.e. 'like cures like'. Each remedy is created by a series of dilution and shaking processes to produce a minimum 'potentised' dose.

## Why choose Weleda?

- Over 95 years of knowledge and expertise making homeopathic and anthroposophic remedies
  - Made and potentised by hand
  - Using plant tinctures from our own biodynamic® gardens
- MHRA approved GMP manufacturing facilities
  - Easy to order and fast delivery
  - Advice line manned by experts

# Arnica - from field to shelf

Every member of staff at Weleda knows when it's 'Arnica Day'.

Arnica is an alpine plant and for this reason it does not thrive in our lowland Derbyshire soil at 'The Field'.

Instead, Weleda obtains Scottish-grown and biodynamically cultivated arnica from the grower, Duncan Ross. Each year Duncan makes a ten-hour drive with a freshly-harvested crop. The day before the crop arrives, Duncan and four other gardeners are busy, carefully lifting each arnica plant, roots and all (planta tota), washing the roots and removing any discoloured and broken leaves. The plants are then placed upright in boxes, with their roots in fresh water, ready for the journey to Weleda Head Office. In the cool twilight hours, he sets off transporting around 100 kilos of whole fresh plants.

*Our gardeners scrub-down and gown-up to meet the stringent rules we work to in our pharmaceutical laboratories.*

Our Weleda gardeners meet and greet Duncan early doors and take delivery of his precious cargo. Every member of staff at Weleda knows when it's 'Arnica Day' and are ready to chip in as and when they are required. It is critical the arnica plants are processed as soon as possible in order to capture the plant's vitality.

Arnica soon passes from the outside world of the garden to a cleaner world of tincture production and manufacturing, outdoor clothing is exchanged for whites and GMP (Good Manufacturing Practice) rules.

Our gardeners keenly check each plant, before shredding ensues and the moisture content is measured. Organic grain alcohol and purified water quantities are calculated and then gradually mixed with the shredded arnica. The gardeners then ensure that the fresh macerate is allowed to infuse for two weeks with occasional stirring.

The vessel is emptied, contents pressed and 50% arnica tincture is created and is now ready to use.

The large guisti is primed, ready to receive potassium olivate, birch leaf extract, lavender and rosemary essential oils and fresh arnica tincture, all vital ingredients in our award-winning Arnica Muscle Soak.

The same active ingredients with their synergistic effect, are combined together to create medicinal Arnica Massage Balm and warming Arnica Massage Oil, firm favourites of rugby teams, mountaineers, ballet dancers and enthusiastic gardeners.

Arnica is a welcome sight post marathon running or any physical activity that renders the muscle a little weary. Ideally, for the full arnica effect, opt for an oral preparation together with external application so arnica can work from the inside out and the outside in.

Join a reforestation revolution and **Plant a Weleda Forest** with TreeSisters

### Our pledge to plant 1 million trees

In 2021, as we celebrate our 100th Anniversary what better way to celebrate this remarkable milestone than to plant a Weleda forest in collaboration with the **UK charity TreeSisters, with the aim of planting one million trees** to combat climate change.

**The Weleda vision is to plant a magnificent forest of trees.** Not a single location but a forest of a million trees planted around the world where trees are needed most urgently - to reclaim endangered rainforest, prevent flooding or soil erosion, protect natural habitats, support local communities in some of the poorest countries in the world, and empower women in the workplace. The charity **funds tropical reforestation projects globally** with a focus on initiatives either run by women or supporting women around the world.

## TreeSisters

Women Seeding Change. **A registered charity with global impact!**

**TreeSisters** is a movement of people around the world who are taking collective responsibility for planetary restoration at the grass roots level.

**TreeSisters'** mission is to accelerate reforestation in the tropics by making it as normal to **give back to Nature** as it currently is to take. They do this by working with world class planting projects that use **ethical planting** methods to plant native tree species. To date they have funded the planting of over **6.5 million trees** and they aim to plant millions more.

All of their planting projects involve and employ local communities to ensure the long-term success of the trees planted and support the rebuilding of the **human connection to Nature**. TreeSisters channels and nurtures feminine Nature-based leadership around the world, **to restore balance and promote planetary and personal wellbeing**.

TreeSisters plants in the tropics **for a number of reasons:**

**Tropical trees sequester carbon 3x as fast as temperate trees.** They do this as tropical trees grow fast! This means they draw down and store **95% of all global tree-based CO2**. Carbon is also sequestered through the roots, which transfer CO2 into the soil.

**Biodiverse tropical forests** also create a huge amount of **organic material** that **improves soil health** - through their leaves, seeds, and branches.

They support and **provide habitats for a vast amount of animal species**. Tropical forests are home to an estimated 50% of all plant and animal species.

*"It has been a gift to be welcomed into the Weleda family so whole heartedly. I feel I found this beautiful community when I needed it most, after my mum died. It is full of kindred spirits, kind hearts and wise souls. It is wonderful to know that everything I have to offer as a wellbeing advisor flows from who I am as a person and all I have experienced. I am a Mother first and foremost and I do not feel any strain around that in my role as a Wellbeing Advisor and training massage therapist. It is such a wonderfully affirming, confidence boosting experience."*
