

WELEDA

Since  1921

Our Advisors have passion. Do you?

Weleda – In harmony with nature and the human being

Pioneering green heritage

Founded in 1921, Weleda is the world's leading manufacturer of natural and organic body care and herbal medicines, active in over fifty countries, across five continents. We were the original sustainable and planet friendly company. Our ethics are in our very DNA, not a quickly formulated marketing strategy.

100% certified sustainable and natural

We grow our ingredients fairly and thoughtfully in our own herbal gardens and through our projects and partnerships established across the world. Weleda is a proud member of the Union for Ethical BioTrade (UEBT) – one of only two cosmetic companies in the world to qualify. Every single product is independently certified by Natrue as cruelty-free and authentically natural, containing no 'nasties' such as synthetic ingredients or artificial additives.

It's all about passion...for our customers

Our customers love our ethos, values and natural ingredients. They demand only the highest standards of stewardship in the way their skin and health care products are formulated and made.

...and for our Advisors

Our Advisors love our ethos, values and products too. And they are a crucial link between Weleda and our customers in their community. Every Weleda product helps to maintain, promote and restore health and well-being, naturally and our advisors ensure that everyone gets the products, advice and support that is perfect for them.

Becoming a Weleda Advisor, share our values?

Our expanding network of Advisors are mini businesses, owned by people from all walks of life, and driven by a desire. They make money, they do good, they change themselves, their customers and the world. What's not to love?

As a Weleda Advisor you will

- Use your passion for natural health, beauty and wellbeing to build a business in partnership with Weleda
- Be part of a nurturing, supportive, ethical company
- Work flexibly at times to suit you and your family and in your own geographical location
- Be supported while you grow your business within your own area
- Not be asked to pay for training, to recruit others, or be given strict sales targets – forget what you know about this sort of enterprise, we're different.
- Enjoy being part of an upbeat and enthusiastic set of like-minded people – have fun, laugh, learn, give and take!

Experience not necessary

Some of our Wellbeing Advisors are natural health practitioners and some are not. If you are passionate about natural health and a natural way of living we can teach you the rest!

We are different from the rest

Wellbeing Advisor positions are limited to a small number available in an area. Advisors are only recruited by Weleda Head Office so you will never be pressurised to recruit. All training is provided free of charge.

The Weleda Advisor Network is uniquely different; a group of Community Mentors are here to support you to set your own goals, helping you to grow your business at a pace that suits you and we will never ask you to recruit directly for us.

“The Weleda Advisor position has surpassed my expectations. The knowledge, support and community is so exciting to be a part of. There’s so much that resonates with me the more I learn about Weleda as a company; the natural ingredients which I had been searching for in an effort to improve my post baby skin issues; the commitment to sustainability and ethical practices, and the Cleaner Beauty philosophy of effective natural skincare which is good for ourselves and for the environment. But most of all, the non-judgemental belief that making small and conscious choices can have a huge and positive impact.”

Isobel Hill

“Becoming an advisor, you’ll meet some really lovely people, you’ll learn loads of new skills and you’ll have such great fun, everyone’s really friendly. No-one will ever make you feel uncomfortable or that you don’t know what you’re doing... it has a lovely family feel to it, it’s great. I absolutely love it.”
